PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Response to Arguments

The scope of the claims is changed by the amendments; new issues are raised that would require further consideration and/or search.

Applicant's arguments filed April 1, 2008 have been fully considered but they are not persuasive, because:

A) Applicant's arguments directed toward the zirconium compound being organic are not discussed because amending the zirconium compound to an organic zirconium compound changes the scope of the invention and would require further search and consideration.

B) Applicant's argument that Kimura et al. adds the zirconium to the composition for a different reason than the instant application is not persuasive. Since all components of the instant claimed invention are included in the composition of Kimura et al., it is implicit that the zirconium compound would behave in the same way in the composition. This is a property of the composition. Further, there is no claim language putting limits on the zirconium compound that would exclude the zirconium compound of Kimura et al., specifically used to adhere a photocatalyst such as TiO_2 on a carrier.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MEGAN ARNBERG whose telephone number is (571)270-3292. The examiner can normally be reached on Monday - Friday 7:30-5:00 EST.

Art Unit: 1796

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Eashoo can be reached on (571) 272-1197. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
